Dear Parents,

Children are always first at Mooresville Intermediate School, and we strive to make every child's educational experience the best that it can be! We are proud of our students' accomplishments and look forward to continuing our efforts to create successful and challenging learning opportunities for every child.

Mooresville Intermediate School's mission is to immerse students in 21st century learning in order to raise student achievement within a nurturing environment. We will accomplish this by providing a rigorous and relevant academic program in a technology-driven learning environment.

We also believe in providing opportunities for our students to be responsible participants in their learning environment and we will provide them with the support and challenges needed to motivate them towards high achievement. Parents and community members are essential partners in ensuring academic success for our students; therefore, we are pleased to provide you with a report card that outlines the facts about our school. Information and understanding is essential as we provide a successful and nurturing academic environment for you and your child.

The No Child Left Behind Act requires schools to issue report cards and provide this accountability information to all stakeholders. The report card includes information about how our students at Mooresville Intermediate School performed on the End of Grade tests during the 2014 - 2015 school year. In 2012 - 2013, North Carolina teachers and students began using a new curriculum.

Along with the new learning standards, students were given completely new state tests. As a result, Mooresville Intermediate School -- as did many schools across the state -- recognized a significant drop in scores during the 2012-2013 school year. Like all schools across North Carolina, Mooresville Intermediate School has worked through this transitional period. In 2013 - 2014 and most recently the 2014-2015 school year, we saw a tremendous increase in student achievement! We are focused on getting all of our students back to being proficient under the new state learning standards as we strive to meet the needs of our students.

While this report card offers many facts about our school, we know that the numbers provide only a part of the story. In order to keep you well informed we will continue to provide information about the school and your child's individual progress.

Mooresville Intermediate School has a dedicated staff that is committed to developing a strong 21st century learning community that will support the success of every child and prepare them to be globally competitive. Thank you for supporting our efforts to provide your child with a quality educational experience.

Every Child, Every Day!

Chris Gammon, Ed.D.
Principal
